 <p>SANCTITY OF LIFE</p>	<ul style="list-style-type: none"> No official position for or against abortion. However, the party leader identifies as pro-life and once spoke at New Brunswick's <i>March For Life</i>. While in Opposition, the PCs fought valiantly to save the modicum of legal protection for unborn children that still existed in New Brunswick, which the Liberals were repealing. This was the rule that required two doctors to sign off that the abortion is medically necessary. Since forming government however, the PCs have not re-instituted the 2-doctor rule. 	<ul style="list-style-type: none"> Officially supports abortion-on-demand as a so-called "right". From the 2024 Liberal Policy Declaration: "... a Liberal Government work collaboratively with healthcare providers, clinics, and community organizations to enhance the accessibility, availability, and quality of abortion services across New Brunswick, ensuring that all individuals have equitable access to the reproductive health care they need." In 2015, the Liberal government abolished the rule which previously required two doctors to sign off that an abortion was medically necessary, thus removing the last remaining vestige of protection for unborn children. 	<ul style="list-style-type: none"> Fully supports abortion-on-demand as a so-called "right". From their official Policy Manual: "A Green government would... Fully support and protect the right to choose; oppose any possible move to diminish the right to a safe, legal abortion; identify all barriers to the right to choose and eliminate them; and expand programs in reproductive rights, health and education to avoid unintended pregnancies." 	<ul style="list-style-type: none"> Past party spokespersons have stated that Alliance "respects the Supreme Court ruling" on abortion. This reveals the party has accepted the myth that the court ruled that abortion is a "right", which it never did. In fact, the Supreme Court affirmed that the state has a legitimate interest in "protecting fetal life". The spokesperson stated the party would be willing to consider improving adoption services: "The party would like to focus on improving adoption services for women who would use that option, such as support and educating the public to remove any negative stigmas that may exist toward the adoption process." 	<ul style="list-style-type: none"> Officially supports abortion-on-demand as a so-called "right". A past NDP Leader declared that all NDP MLAs must vote pro-abortion, even if it means violating their consciences and/or religious beliefs.
 <p>FUNDING ABORTIONS</p>	<ul style="list-style-type: none"> Admirably, the PC government refused to divert taxpayer dollars towards funding elective abortions at a private abortuary in Fredericton, Clinic 554. This led to its eventual closure. However, the PC government has continued to fund elective abortions committed in the province's hospitals. 	<ul style="list-style-type: none"> Supports diverting taxpayer dollars away from genuine healthcare needs, to pay for abortions instead. Pledged to repeal Regulation 84/20 which currently bars taxpayer dollars from funding abortions committed at private clinics. 	<ul style="list-style-type: none"> Supports diverting taxpayer dollars away from genuine healthcare needs, to pay for abortions instead.  <p>EUTHANASIA</p>	<ul style="list-style-type: none"> New Brunswick, under the current PC government, was one of the provinces that asked Ottawa to "indefinitely" shelf Justin Trudeau's controversial legislation to expand euthanasia to the mentally ill & depressed. 	<ul style="list-style-type: none"> No official policy on euthanasia. 	<ul style="list-style-type: none"> No official policy on euthanasia. 	<ul style="list-style-type: none"> No official policy on euthanasia. 	<ul style="list-style-type: none"> No official policy on euthanasia.

 <p>CONSCIENCE RIGHTS</p>	<ul style="list-style-type: none"> No official policy on conscience rights for health-care workers to be able to refuse to participate in abortion, euthanasia or sex-change mutilation surgeries. The party allows its MLAs free votes on matters of conscience. 	<ul style="list-style-type: none"> No official policy on conscience rights for health-care workers to be able to refuse to participate in abortion, euthanasia or sex-change mutilation surgeries. 	<ul style="list-style-type: none"> No official policy on conscience rights for health-care workers to be able to refuse to participate in abortion, euthanasia or sex-change mutilation surgeries.  <p>PARENTAL RIGHTS</p>	<ul style="list-style-type: none"> Supports parental rights in education. In May 2024, after parental outcry about an external sex education group that promoted pornography and indecent sex acts to students, the PCs banned the group from giving presentations in any New Brunswick school. PC government has opposed the practice of schools hiding from parents the most intimate details of their children's lives. The party Leader and PC Education Minister supported a parental rights protest held on the lawn of the legislature. This commonsense reform was implemented under Policy 713. 	<ul style="list-style-type: none"> Opposes parental rights in education.  <p>TRANSGENDER IDEOLOGY</p>	<ul style="list-style-type: none"> Admirably, the PCs opposed extreme gender ideology in schools by banning teachers from facilitating the "gender transition" of children without the express consent of the child's parents. Parents will now be notified and permission requested before their children under the age of 16 can use opposite-sex names and opposite-sex pronouns. Presumably, this policy would also require schools to obtain parental consent before referring children to a transgenderism-affirming psychologist who might start the underage child on puberty blockers. 	<ul style="list-style-type: none"> Supports transgenderism and LGBT ideology. Want schools to keep it a secret from parents if their gender-confused child impersonates the opposite sex while at school. On June 1, the Liberal Party marched with a banner in the LGBT "Pride" parade. Leader Susan Holt was at the front. 	<ul style="list-style-type: none"> Supports transgenderism and LGBT ideology.  <p>DRUGS</p>	<ul style="list-style-type: none"> Official policy declaration pledges a "drug prevention and enforcement" strategy along with "expanded treatment facilities for detox and rehabilitation" to fight the hard-drug crisis. This contrasts sharply with the government-run drug injection site strategy embraced by leftist parties, which often involves supplying free drugs to addicts. 	<ul style="list-style-type: none"> No policy on hard drugs. 	<ul style="list-style-type: none"> Promotes a so-called "harm reduction strategy" to deal with the explosion of hard drug use. "Harm reduction" typically means setting up government-run drug dens where anybody can go and shoot heroin, snort cocaine, smoke crack, take fentanyl, etc. This "strategy" also includes giving free drugs to addicts - an absolutely disastrous idea that only worsens the problem of drug addiction.
